# We are **Art & Science**

**Inspired by sophisticated artisan-candy** making procedures that highlight the essence of our products and powered by top-of-the-line technologies that ensure the most elevated sensorial experiences and quality standards.

**Funtrition® is proud to be Art & Science  
driven by Structured Flexibility.**

# About **Funtrition®**

We are Art & Science

# WHO WE ARE

**Funtrition®** is a leading provider of contract manufacturing and product development services in **advanced gummy technologies** for the global nutraceutical industry.

Through our extensive capabilities and expertise in product development and gummy manufacturing, we help different companies bring innovative supplement products to their markets faster, offering their consumers an exceptional experience, higher preference and superior adherence to different therapies and nutrition concerns.

Our advanced technological gummy platforms, including

plus our proven formulation, manufacturing and regulatory expertise, have enabled us to offer **end-to-end solutions** and what we believe to be best-in-class support across both development and delivery of innovative gummy solutions.

**OUR**  
**PURPOSE** 

**Having fun**  
innovating in consumer  
experiences for well-being!

# Where we stand today

## +25 Clients

- ✖ 75% Supplement Companies
- ✖ 15% Pharmaceutical Companies
- ✖ 10% Others

## Inspiration Center

- ✖ +15 Gummy scientists
- ✖ +7 Groundbreaking gummy technologies
- ✖ Sensory panel with gummy certified panelists

## +100 SKU'S

- ✖ Delivering unique nutraceutical products to brands around the globe.

## NEW Products

- ✖ 50 SKU'S launched annually
- ✖ 7-9 months, quick and flexible development and launch processes.

## Certifications

# Our Gummy **Facilities**

# Two state-of-the-art Starchless facilities

## Delivering Art & Science through world-class nutritional products

Two state-of-the-art gummy facilities with integrated development and manufacturing (USA and COL) capabilities for global reach and better proximity to our current and prospective partners. We conduct semi-automated processes that preserve sophisticated artisan procedures, led by a highly passionate team of experts, to make our products unique in the market.

Through our extended capabilities **we are able to respond to the increased global demand for advanced gummy technologies**, offer our customers complete support for their growth plans, guarantee redundancy in supply to the market as well as double our overall capacity.

# Why Starchless?

**Visually Appealing:** Guarantees uniform gummies with delicious flavors, appealing to even the pickiest of consumers!

**Allergen & Gluten-Free:** Eliminates allergens like wheat or corn-derived starch, making our products allergen & gluten-free.

**Controlled Ingredient Dosage:** Maximum control over ingredient deposition, ensuring precise dosage needed in each gummy for desired health benefits.

**Environmental Protection:** Minimizes environmental impact by reducing waste and simplifying ingredient lists.

# Starchless manufacturing

sets high standards for  
hygiene, efficiency and  
product quality.

# Inspiration Center

Where inspiration begins and gummy creation never ends

# Inspiration begins here...

Our **Inspiration Center** is designed to offer our customers the opportunity to develop a product **from pilot to industrial scale** quickly and easily, allowing a **flexible scale-up process**. These ideas can later be manufactured at our headquarters in Colombia or at our US gummy facility.

A new generation in Nutrition with

# INNOVATIVE GUMMY TECHNOLOGIES

Gummy  
**gels**  
Gelatin Gummies

 **pec-g**  
Pectin Gummies

**agar-g**  
Agar Gummies

**gummie**   
Mixed Matrix Gummy

**Side by Side**

**air-g**  
Aerated Gummies

**layer-g**  
Layered Gummies

Our plant-based technology, Pec-G™, offers a short, clean bite and slightly elastic texture, making it convenient for those who have difficulty chewing, such as children and elderly adults. **Pectin has the ability to enhance and elevate fruit flavors, resulting in an explosive sensorial experience.** It also allows for natural extracts to be easily incorporated into the formula, complementing the already natural product. Pec-G™ is highly preferred when wanting to develop a gummy that is suitable for vegetarians.

Our Agar-G™ gummy technology offers plant-based gummies with a non-sticky texture that result in a clean and slightly rough bite. **Since agar has no taste, no odor, and no color, it offers the possibility of incorporating exciting colors and flavors.** Due to its nature, it also allows for minerals to be easily integrated in the formulas, creating indulgent and nutritional bites.

# gummieX

Mixed Matrix Gummy

**The gummy that can take the heat!**

GummieX™ is one of our most disruptive technologies, consisting of the development of formulas with a mixture of hydrocolloids to achieve the ideal gummy! **This technology is designed to obtain the desired texture and flavor by carefully selecting the right matrix of gelling agents.** It's not only adaptable, but also has the added benefit of not needing cold shipment, due to its ability to resist extreme temperatures. GummieX™ can also be the solution for cost and technical issues that emerge in product development. Besides being an asset for customers, it offers an incredible performance for consumers.

With GummieX™ we are putting innovation in practice: Meeting supply chain challenges and costs while elevating consumer sensorial experience.

**NEW TECHNOLOGY**

# airg

Aerated Gummies

Whether it's animal or plant-based, Air-G™'s focus on stable minerals provides the ideal conditions for a nutrient-rich formulation.

**Light, fluffy and visually appealing, this technology offers fun vibrant colors and a unique mastication sensation.**

NEW TECHNOLOGY

**layer<sup>g</sup>**  
Layered Gummies

Layer-G™ offers two layers and double the fun! Combining the best of traditional gummies and aerated gummy technologies, **Layer-G™ allows the integration of different types of actives within the same gummy.** With a delightful velvety feel and distinct textures in each layer, this technology delivers a unique multi-layered delight.

NEW TECHNOLOGY

**Side by Side**

**Side by Side™** is our newest innovation in visual and functional differentiation, bringing together two distinct compositions in a single gummy. **This technology allows the integration of two different colors, flavors, and even actives that would otherwise be incompatible in one formula** giving brands the freedom to combine complementary ingredients without compromising stability or sensorial appeal. The result is a gummy that not only looks unmistakably premium on shelf, but also delivers a layered tasting experience with every bite. With Side by Side™, we're redefining what a single gummy can offer: **two experiences, one format.**

# SENSORY WORLD

**At Funtrition® we are committed to crafting gummies that stand out in taste, aroma, and texture. For this reason, we've created a Sensory Panel texture of 20+ Funtritioners trained to carefully evaluate and distinguish each gummy attribute.**

**Our FunPanelists will be able to perform two types of analytical tasks:**

## **Descriptive tastes**

Describing with precise vocabulary the different sensations perceived when tasting a product.

## **Discriminative Taste**

Validating the absence or presence of perceptible differences between two or more products.

# Building a team of experts!

This will allow them to support us with:

## **Product Design:**

Concept ideation of a new product to be launched.

## **Benchmark Testing:**

Evaluate a product that has already been released to the market.

## **Product Reformulation:**

Alter an existing product, according to client preference or need.

## **Quality Assurance:**

Set specific quality standards for our products.

# Why Funtrition® **Gummies?**

We can develop and manufacture a one-of-a-kind nutraceutical gummy for your brand.

Nut Free
